

ReSound helps people rediscover hearing with solutions that emulate the natural function of the human ear. Our aim is to give you the opportunity to live a rich, active, and fulfilling life unaffected by hearing loss.

We are the only hearing aid manufacturer that offers a complete solution of integrated wireless connectivity across the entire product range so you can stream audio, personalise your sound and control your hearing aids without the need for an intermediary device.

ReSound

rediscover hearing

Hear more
than you ever
imagined

Smart Hearing™ connects you to the world and supports you in the way you want to lead your life. Imagine walking into a busy café. You're there to meet friends and there's lots to catch up on. As you turn off the music you were streaming directly from your phone to your hearing aids, you become aware of the background noise. But you're not worried. You're simply looking forward to the conversation with your friends.

DIRECT STREAMING

Your hearing aids now work like wireless stereo headphones. So you can hold a conversation in a noisy place. Make a phone call with ease. Chat with a loved one in the car. Or watch TV with the family at a volume that's comfortable for everyone.

DISCREET CONTROL AND PERSONALISATION

You can also control and personalise your hearing aids from your iPhone or smartphone, so anyone looking will think you're just reading a text message.

THE CONFIDENCE TO JOIN IN

This is the essence of ReSound Smart Hearing – solutions that adapt to you and your lifestyle, so you can enjoy the moment and join in with confidence.

Connect, interact and engage with your world

With our ecosystem of wireless connectivity you can stream, control and personalise the sound to your ReSound hearing aids without wearing an intermediary device around your neck.

Made for iPhone

Make your hearing aids work like wireless stereo headphones.

Wireless accessories

Enjoy opportunities to hear and do more in challenging listening situations.

Apps

Control and personalise your hearing experience from your iPhone or smartphone.

ReSound Micro Mic

Focus on the sounds you want to hear, even in a noisy place, and extend your hearing by up to 25 metres in a clear line of sight.

ReSound Multi Mic

Get all the benefits of the Micro Mic, and use it as a table microphone too. Connect with loop and FM systems*, and use the mini-jack input for streaming audio to your hearing aids.

ReSound Unite Phone Clip+

Make crystal-clear phone calls, mute background noise while you talk, or stream music, podcasts or any audio from your phone.

ReSound Unite Remote Control 2

Adjust the volume or mute your hearing aids, switch programmes, and see all your settings at a glance.

ReSound Unite TV Streamer 2

Stream stereo sound from your TV, computer, or music system.

ReSound Smart app and ReSound Control app

Personalise and control your hearing aid settings from your iPhone or smartphone.

* FM receiver required

Make your hearing aids work like wireless stereo headphones

All streamed from your iPhone, iPad or iPhone touch directly to your hearing aids. With no neck loop or intermediary device, Made for iPhone connectivity is the easiest, most discreet way to make your hearing aids work like wireless stereo headphones.

If you don't have an iPhone, you can still stream stereo sound for calls and music from your Android smartphone or any other Bluetooth-enabled phone. Simply pair your phone with ReSound's Phone Clip+.

Make phone or FaceTime calls with loved ones. Listen to your favourite music or audiobooks in stereo. Get turn-by-turn directions around an unfamiliar town.

iPod iPhone iPad

Extend your hearing and enrich your life

The latest additions to our range of wireless accessories, ReSound's Micro Mic and Multi Mic, enable you to hear more of everything. The voice of a loved one, a teacher, a colleague – whether they are in a noisy place or several metres away, you'll hear them clearly in exceptional sound.

So now you can connect the Micro Mic or Multi Mic to the world's smartest hearing aids*, and feel confident that you won't miss a beat in the conversation when you're out with family or friends.

RESOUND MICRO MIC

Extremely easy to use, the Micro Mic pairs to ReSound Smart Hearing aids* in seconds. Clip it on to the clothing of the person you want to talk to and enjoy the conversation, even in background noise – and you can still hear them even if they are up to 25 metres away from you in clear line of sight.

RESOUND MULTI MIC

Works like the Micro Mic with the same hearing range of up to 25 meters, but also doubles as a table microphone, so you can hear everyone sitting around it. It's compatible with loop and FM systems**, and even has a mini-jack input so you can stream virtually any sound directly to your hearing aids.

*Compatible with all ReSound wireless hearing aids

**FM receiver required

Connect to your phone for crystal clear calls

One of the things you notice when you begin to lose your hearing is that phone calls are a little bit harder. ReSound's Phone Clip+ changes all that.

MAKE CALLS WITH CONFIDENCE

Simply clip on the Phone Clip+ and you are ready to take calls. With one push of a button you'll hear the caller's voice, crystal clear, in your hearing aids, even if you're in a busy street.

STREAM SOUND FROM YOUR PHONE

You can also stream audio from your phone. So you can listen to music or podcasts. Because, with the Phone Clip+, your hearing aids work like wireless stereo headphones.

CONTROL YOUR HEARING AIDS

You can even use the Phone Clip+ to change the volume and programme of your hearing aids.

Home just got a lot more entertaining

Now it's time to invite the family back into the living room. Because with ReSound's TV Streamer 2, you can watch TV with the whole family at a volume that's comfortable for everyone.

CHAT WHILE YOU WATCH

You can adjust the volume of your hearing aids and the TV independently with ReSound's Remote Control 2 or apps, so you can still chat with family and friends while you watch TV together. And if you get out of wireless range for less than five minutes, your hearing aids will automatically reconnect to the TV Streamer 2 when you are within range again.

SIMPLE TO CONNECT

Connect ReSound's TV Streamer 2 to your TV, stereo or computer and stream stereo audio directly to your hearing aids.

CONTROL AT YOUR FINGERTIPS

ReSound's Remote Control 2 gives you simple control and an overview of the volume and programme settings of your hearing aids. You can switch to one of your ReSound streaming accessories, balance its volume with your hearing aids, and see all your settings on the backlit display.

Personalise your hearing experience

With the award-winning ReSound Smart™ app, you can fine-tune your ReSound Smart Hearing aids to your unique taste.

All without having to touch your hearing aids. And it's available for Apple Watch too.

MAKE ADJUSTMENTS FOR LISTENING COMFORT

Fine-tune hearing aid settings with the Sound Enhancer for more listening comfort in a noisy place or outside on a windy day. You can adjust volume, treble and bass and create favourite settings, geo-tag them, and have them activate as you enter a new location. And you can control the volume of your ReSound streaming accessories.

CONTROL THEM FROM YOUR WRIST

With the ReSound Smart app for Apple Watch you can control your hearing aids straight from your wrist – wherever you are.

DISCREET CONTROL OF YOUR HEARING AIDS

Adjusting volume or switching programmes is as easy as a tap and a swipe. Simply pair your smartphone with the Phone Clip+ and use the free ReSound Control app for discreet control over your hearing aids. You can also access and balance the volume of your ReSound streaming accessories such as the Micro Mic.
